

## Human Factors - Critical Keys to Flight Proficiency

Human Factors play a critical role in the success of every flight. From the time we first start planning for a local, proficiency, or cross-country flight, human factors are at work affecting each and every decision we make. Jim Pope, former American Airlines Boeing 777 Check Airman (DPE equivalent) and long-time GA pilot will share from his varied experiences some particularly insightful information about sometimes unseen forces and critical human factors affecting a pilot's ability to complete a flight safely and competently.

**Directions:** Go West from downtown Granbury on W. Pearl St (377 BR) 2 miles. Turn right at Airport sign onto Howard Clemmons Rd and follow road to terminal on left. Conference room is in the terminal.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
